**1. What is your connection or interest in this case? \* For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)**

I am a current and future customer of Dominion Energy and am looking into building solar on my new home.

**2. Please give a concise statement of your protest. \* (This section must be completed. Attach additional information if necessary.)**

Dominion's plan to significantly raise compulsory fees for solar customers are outrageous and will penalize customers who are looking to help the environment and reduce their costs by investing in renewable energy systems. This is totally counter to the efforts South Carolina should be making in ensuring conservation, air quality and environmental sustainability make our state a healthy and pleasant place to live. Dominion should not be shadily increasing these fees for customers trying to make a positive difference and instead should be forced to reduce profit or get the fees from dirtier energy sources/users.

**3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? \***
